HANNA HOLDS SENATE

Makes a Speech on the Ship Subsidy Measure.

EFFORT OF HIS LIFE

His Arguments Were Carefully Arranged, Forceful and Earnest and at Times Eloquent—Free Rural Delivery Service.

Washington, March 7.—A notable speech was made in the senate Thursday by Mr. Hanna of Ohio, on the pending shipping bill which he discussed from the standpoint of an American business man. His arguments were carefully arranged, he was forceful and earnest and at times became eloquent. He commanded the undivided attention of the senate and of the galleries and when he closed he received congratulations of many of his colleagues.

Early in the session, Mr. Frye, in charge of the pending shipping bill, obtained an agreement that the senate should vote on the measure and all pending amendments at 3 p. m. Monday, March 17, that time being entirely satisfactory to those opposed to the bill.

Before consideration of the shipping

bill was resumed an extended debate occurred on the measure providing for the protection of the president of the United States.

Mr. Bacon of Georgia took the ground, in the present shape, the bill was an invasion of the jurisdiction of the state and that it ought to be amended radically. Mr. Patterson of Colorado, while he agreed to the general propositions of the bill urged it ought not to pass in its present form. No action on the bill was taken.

At the conclusion of routine business consideration was begun on the bill providing for the protection of the president of the United States.

The resolution was adopted and the president named Senators Penrose and Quay of Pennsylvania, Culberson of Texas, Carmack of Tennessee, Gamble of South Dakota and Patterson of Colorado, as the committee. As an additional mark of respect the senate adjourned.

The house devoted the day to debate on the bill to classify the rural free delivery service and to place the carriers under contract. Little interest was manifested in the discussion.

Steamers Collide in a Fog.

London, March 7.—The American line steamer Walsland, Capt. Atfield, from Liverpool, March 5, for Philadelphia, and the British steamship Harmonides, Capt. Pentin, from Para, Feb. 13, for Liverpool, met in collision Thursday night off Holyhead, Wales. The Walsland sank. Her passengers and crew were saved. The Harmonides rescued the passengers of the Walsland and is bringing them to Liverpool. Tugs have been sent from Liverpool to meet the Harmonides. The Walsland carried 32 cabin and 82 steerage passengers.

Mysterious Assault.

Chicago, Ill., March 7.—After spending twenty-four hours in the Great Northern bath house J. R. Davidson, western manager of the Philadelphia Watch and Case company and prominent in Chicago jewelry trade circles, was found unconscious by attendants in the place. Davidson was removed to St. Luke's hospital where he died without making a statement. A post mortem examination revealed a fractured skull, but how it occurred is as yet a mystery.

Stock of Goods Seized.

Waco, Tex., March 7.—Chief of Police Dollins and his men raided a hotel and grocery store on Bridge street and took possession of a stock of groceries and tobaccos, the entire lot being claimed by merchants who state

that the goods were stolen from them by thieves and burglars. Eight negroes were arrested. Several drayloads of goods were seized by the officers as stolen property.

Populists Convention at Louisville.

Louisville, March 7.—Jo. A. Parker, chairman of the National Populist committee announces that the convention will be held at Louisville on April 2 as originally planned. Louisville hotel keepers agreeing to furnish a hall for the conference.

IN PATRICK'S BEHALF.

His Attorneys Make an Effort to Have the Case Dismissed.

New York, March 7.—The defense began presenting its side of the case Thursday in the trial of Albert T. Patrick, who is accused of the murder of William M. Rice. Recorder Goff declined to grant requests made by the defense to strike from the records the testimony of Mr. Witthaus, the chemist, and to compel the assistant district attorney to state under which of the counts of the indictment against

ALBERT T. PATRICK.

Patrick he asked a conviction.

Counsel for Patrick asked the recorder to direct the jury to acquit the defendant on the grounds that the evidence was insufficient to warrant a conviction; that there was no evidence upon which the jury could base conviction; that the people had failed to prove the defendant guilty of crime; that no real evidence had been presented of a conspiracy between Patrick and Jones to kill Mr. Rice; that no evidence except the statement of Jones had been given as to a conspiracy to kill Mr. Rice; that the only evidence of any conspiracy was the evidence of the co-conspirator, Jones, and no evidence had been submitted to support the allegations of the indictment.

The motion was denied, and Mr. House of counsel for defendant began his opening address.

CATTLEMEN'S CONVENTION

President Lusk Re-Elected at the Meeting Now Held at Denver.

Denver, March 7.—The American Cattle Growers' convention has adopted resolutions advocating the enactment, with some amendments, of the bill now before congress which provides for the leasing of public lands for grazing purposes. At the afternoon session the following officers were selected:

President—C. F. Lusk, Chico, Cal.
First vice president—Bartell Richards, Ellsworth, Kan.
Second vice president—M. K. Parsons, Salt Lake.

Treasurer—S. G. Gill, Denver.

Secretary—H. W. Robinson, Denver.
An executive committee was named, including Bartell Richards, Hugh Chick of Nebraska and F. M. Stewart and G. E. Leman of South Dakota.

Resolutions were adopted asking President Roosevelt to suspend the work of removing the fences from the public range until action on the leasing bill is taken.

The convention declined to adopt resolutions regarding the oleomargarine bill and the Grosvenor anti-shoddy bill.

MIRACULOUS ESCAPE.

Man Throws a Kidnaped Child from a Train and Jumps Off Himself.

Greencastle, Ind., March 7.—Jacob Reynolds threw a little girl from a moving train on the Monon railroad at Limesdale Thursday, then jumped after her, escaping a Kentucky sheriff who had been after him since October 11.

The sheriff had arrested Reynolds at Valparaiso, on a warrant charging him with kidnapping the little daughter of a woman who lives in Green county, Kentucky. The prisoner was being taken back to Kentucky and the handcuffs were removed from him to permit him to take the little girl to the other end of the car. He went to the platform with the child and escaped.

FRANKLIN BROTHERS

BRYAN, TEXAS,

Have slaughtered and sold more cattle and hogs than all the other dealers here together.

WHY?

Because their way of doing business is to do it by wholesale. TWO big markets—15 men employed all the while catering to the wants of fastidious trade educated to eat good meats and no other. We have the facilities and intend to keep the trade by always selling the best at the lowest prices it can be bought for. We buy Wool, Hides, Pelts at highest market price.

Some People Think

Fancy prices make the things they eat better. This is a very erroneous and expensive notion. Fancy prices are often the result of high rents, clerk hire, etc. If your grocery bill is too large it will pay you to examine our stock of groceries and the low prices we make on them. They are fresh, pure and wholesome. They please our old customers and if you will let us send a trial order we will please you.

A PYTHIAN TEMPLE.

Plans Adopted to Form a Stock Company.
Want to Begin Building by June 1.

The Knights of Pythias had a
largely attended and enthusiastic
meeting on Tuesday night to dis-
cuss the building of a Pythian
temple in Bryan.

The committee appointed to re-
commend a plan proposed that a
stock company, to be known as the
Pythian Building association of
Bryan, be organized, and that one-
half of the stock be offered for sale
to the individual members of the
lodge and the other half be reserved
for the lodge. This plan was
adopted by a rising vote and an
opportunity was given for those
present to subscribe for stock. Nearly
all of the large number present
subscribed, and it was evi-
dent from the spirit of the meeting
and the sentiments of the members
that the project will be carried out
successfully.

It was decided to buy 40 feet on
the south corner of the Howell
block, and a handsome brick struc-
ture, two stories high, with glass
and iron front, will be erected
thereon. The lower floor will prob-
ably be used as a store and the
second floor will be divided into
lodge rooms and offices.

The committee will call on all
members who were not present at
the meeting, and it is thought that
very few will be unwilling to take
stock, as it doubtless will prove a
good investment. There will be a
meeting of stockholders at the next
regular meeting of the lodge and
permanent organization will then
be effected.

The lodge decided that all plans
would be laid to begin the actual
work of building not later than
June 1.

This move on the part of the
Knights of Pythias is highly sig-
nificant in that it shows the perfect
confidence the members have in
the future of the city.

They are to be congratulated on
their pluck and spirit, and the city
will profit thereby.

JUDGE WALLACE DEAD.

He Was Police Magistrate of Chicago for
Thirteen Years.

Chicago, March 7.—Judge Martin R.
M. Wallace, a pioneer resident of Chi-
cago, and a prominent character, with
a long life full of notable incidents, is
dead, aged 74 years. For 13 years
Judge Wallace has been a police mag-
istrate. He left the bench February
12 too weak to conduct business of the
court, and did not recover.

Judge Wallace was a brevet brigadier
general of the civil war. He served as
United States assessor in the district
of Cook county under the second ad-
ministration of Grant, and he became
noted during the whiskey scandal as
the man who refused a bribe of \$75,000,
said to have been offered by the whis-
ky ring. He had always been known
for his sterling honesty, but from that
day he was pointed to with pride by
persons discrediting the allegation
that every man has his price. He was
a native of Ohio, and had resided in
Illinois since 1839. He studied law in
the Ottawa, Ill., office of General Lew
Wallace. He was a United States jury
commissioner for 40 years.

ALASKAN BOUNDARY.

United States and England Will Submit
the Question to Arbitration.

New York, March 7.—No official in-
formation can be obtained, says the
London correspondent of the Tribune
respecting negotiations in regard to
the Alaskan boundary, but Lord
Strathmore, without doubt, has pre-
sented the Dominion's claim, and the
British foreign office is striving to ef-
fect a settlement. Arbitration is the
solution which is probable, since the
state department is not likely to pro-
pose the alienation of the territory ceded
from Russia, and any scheme for a
canadian purchase will be vetoed by
the senate at Washington. Arbitration
offers a line of least resistance, and
will enable the United States and the
Dominion governments to formulate
their cases with precision and to ac-
cept with good grace some equitable
compromise of the frontier question.
Negotiations have not reached their
final stage, but their trend is in the
direction of arbitration as the only
practicable method of adjustment of
this troublesome dispute.

Must Pay Franchise Tax.

Austin, March 7.—The supreme court
has reversed the judgment of the court
of civil appeals and affirmed the judg-
ment of the district court in the case

All Texas and the South feels
deep solicitude regarding the con-
dition of the venerable Judge John
H. Reagan, who has been ill for
several days.

It begins to look as if San Anto-
nio will get a permanent military
camp of instruction. Texas should
have one by all means, and San
Antonio is the place for it.

"Now is the time to clean up the
city. Sweep the streets, get the
debris out of the back corners and
remove accumulations from front
and rear yards. Springtime is here
and every kind of a germ known
to science will be creeping from
winter quarters to start business
for the warm weather," says a con-
temporary. Such little reminders
as these are very timely and should
be given the attention they deserve.

Wooster, O., has been appointed
assistant to Prof. F. W. Mally, state

Plans Adopted to Form a Stock Company. Want to Begin Building by June 1.

The Knights of Pythias had a
largely attended and enthusiastic
meeting on Tuesday night to dis-
cuss the building of a Pythian
temple in Bryan.

The committee appointed to rec-
ommend a plan proposed that a
stock company, to be known as the
Pythian Building association of
Bryan, be organized, and that one-
half of the stock be offered for sale
to the individual members of the
lodge and the other half be reserved
for the lodge. This plan was
adopted by a rising vote and an
opportunity was given for those
present to subscribe for stock. Nearly
all of the large number present
subscribed, and it was evident
from the spirit of the meeting
and the sentiments of the members
that the project will be carried out
successfully.

It was decided to buy 40 feet on
the south corner of the Howell
block, and a handsome brick struc-
ture, two stories high, with glass
and iron front, will be erected
thereon. The lower floor will prob-
ably be used as a store and the
second floor will be divided into
lodge rooms and offices.

The committee will call on all
members who were not present at
the meeting, and it is thought that
very few will be unwilling to take
stock, as it doubtless will prove a
good investment. There will be a
meeting of stockholders at the next
regular meeting of the lodge and
permanent organization will then
be effected.

The lodge decided that all plans
would be laid to begin the actual
work of building not later than
June 1.

This move on the part of the
Knights of Pythias is highly sig-
nificant in that it shows the perfect
confidence the members have in
the future of the city.

They are to be congratulated on
their pluck and spirit, and the city
will profit thereby.

JUDGE WALLACE DEAD.

He Was Police Magistrate of Chicago for
Thirteen Years.

Chicago, March 7.—Judge Martin R.
M. Wallace, a pioneer resident of Chi-
cago, and a prominent character, with
a long life full of notable incidents, is
dead, aged 74 years. For 13 years
Judge Wallace has been a police mag-
istrate. He left the bench February
12 too weak to conduct business of the
court, and did not recover.

Judge Wallace was a brevet brigadier
general of the civil war. He served as
United States assessor in the district
of Cook county under the second ad-
ministration of Grant, and he became
noted during the whiskey scandal as
the man who refused a bribe of \$75,000,
said to have been offered by the whis-
ky ring. He had always been known
for his sterling honesty, but from that
day he was pointed to with pride by
persons discrediting the allegation
that every man has his price. He was
a native of Ohio, and had resided in
Illinois since 1836. He studied law in
the Ottawa, Ill., office of General Lewis
Wallace. He was a United States jury
commissioner for 40 years.

ALASKAN BOUNDARY.

United States and England Will Submit
the Question to Arbitration.

New York, March 7.—No official in-
formation can be obtained, says the
London correspondent of the Tribune
respecting negotiations in regard to
the Alaskan boundary, but Lord
Strathmore, without doubt, has pre-
sented the Dominion's chief and the
British foreign office is striving to ef-
fect a settlement. Arbitration is the
solution which is probable, since the
state department is not likely to pro-
pose the alienation of the territory col-
lected from Russia, and any scheme for
a Canadian purchase will be vetoed by
the senate at Washington. Arbitration
offers a line of least resistance, and
will enable the United States and the
Dominion governments to formulate
their cases with precision and to ac-
cept with good grace some equitable
compromise of the frontier question.
Negotiations have not reached their
final stage, but their trend is in the
direction of arbitration as the only
practicable method of adjustment of
this troublesome dispute.

Must Pay Franchise Tax.

Austin, March 7.—The supreme court
has reversed the judgment of the court
of civil appeals and affirmed the judg-
ment of the district court in the case
of the city of Dallas vs. Dallas Con-
solidated Electric Street Railway com-
pany, from Dallas. This is a case to
compel the Dallas street railway com-
pany to pay a franchise tax, or rather
it originated by the street railway com-

restraining the city of Dallas and its
tax collector from collecting the tax

CUBAN RECIPROCITY WRECK MOST SERIOUS

The Third Conference of Republicans Held in Washington.

NO ACTION TAKEN.

The Difference Is Over the Twenty per Cent Reciprocity and the Rebate Plan—Mr. Dazell Was the Principal Speaker.

Washington, March 7.—The third conference of Republican members of the house of representatives to consider the question of Cuban tariff concessions was held Tuesday night in the hall of the house. About 150 members were present, and great interest was manifested owing to the sharp division which has occurred between the supporters of the ways and means proposition for 20 per cent reciprocity, as put forth by Chairman Payne, and the rebate plan proposed by Representative Tawney of Minnesota.

Prior to the meeting Speaker Henderson and Representative Cannon of Illinois, the latter chairman of the caucus, called at the White House and were understood to have held a further conference with the president on the situation.

Mr. Dazell, a member of the ways and means committee, and an ardent supporter of the Payne reciprocity plan, was recognized at the outset for an extended speech, presenting legal objections to the Tawney proposition. He maintained that this proposition was a bounty to Cubans, and as such, was unconstitutional. He also urged the impracticability of the bounty plan, saying there were some 15,000 planters dealing through 160 middlemen, so that it would be impossible to make equitable distribution. Mr. Dazell referred to the widespread sentiment of the press favorable to reciprocal concessions. He was interrupted by a fire of cross questions as he proceeded.

Mr. Dazell declared that the Republican party had never run away from an issue, and it should not run away from this one. He read from the president's message favoring reciprocity. At one point Representative Mahan of Pennsylvania interjected the query, "Suppose Cuba's products were iron and steel instead of sugar and tobacco, should they remove 20 per cent tariff concessions?"

One of the Philadelphia members added the statement that his district did not favor the reciprocity plan.

Mr. Dazell proceeded with his argument, maintaining that from the standpoint of expediency and practicability the Payne plan offered the best solution of the problem.

Representative Taylor of Ohio maintained that there should be no inroads in the doctrine of protection. Representative Mahan presented a resolution for the postponement of the entire subject until the next session of congress. In a short speech, he declared that the west had stood by Pennsylvania when there was not a smokestack in the west, and in return he proposed to stand by the beet sugar smokestacks of the west.

Representative Long of Kansas spoke in favor of the Payne proposition, and had not completed his argument when, at 11 o'clock, he yielded to Speaker Henderson. The latter counseled the fullest discussion before action was taken, in order that differences might be reconciled and an amicable adjustment reached. The speaker's suggestion met general acceptance, and at 11:15 the conference adjourned until next Tuesday night.

May Again Patch Differences.

New York, March 7.—If plans now under consideration are consummated the Pacific Mail Steamship company and the Panama Railroad company may again enter into traffic relations with each other. When the contract under which these companies exchanged traffic for many years expired about two years ago the Panama railroad refused to renew it on the old conditions, with the result that there ensued a bitter rate war between the two corporations, each of which endeavored to cut into the traffic of the other.

The wreck was discovered by a telegraph operator at a small station near the scene, who wired El Paso for assistance. A wrecking train left immediately for the scene.

Only a meagre report has been received here.

The train was ditched three miles from Maxon on the El Paso and Sanderson division. Nine coaches and baggage cars were burned. Only one coach escaped which was occupied by Ryan and 40 New York capitalists.

Engineer Mast, a native of St. Louis, and Fireman Harry Bertsch, of El Paso killed. Conductor Stackwell escaped.

The train is but a smoking heap of ruins. Many bodies were burned.

Fifteen dead reported found, but they are not yet identified.

It is reported some of the injured would have lived had they not been helpless and later burned.

WRECK OF THE WAESLAND

Only Two Passengers Were Drowned, but All Lost Their Possessions.

Liverpool, March 7.—The British steamer Harmonides from Brazilian ports, which was in collision with and sunk the Red Star line steamer Waesland Wednesday night about 40 miles southwest of Holyhead and which was towed to this port by tugs sent in search of her, has a great hole in her bow.

One of the rescued passengers of the Waesland who was on board the Harmonides said the Waesland was run into amidships in a fog at midnight and sank half-hour afterward, her boilers bursting as she went down. Reports say that only two passengers of Waesland, man and child, lost their lives, appears to be confirmed. In addition one woman was injured. Some of the Waesland's boats were in water a couple of hours before rescued, but owing to fog they could not get alongside the Harmonides.

When the Harmonides arrived here her decks were crowded with half-elad passengers of the Waesland whose pale and haggard faces told the story of their trying experience. So hurried was the departure of passengers from the sinking ship that in some cases they were only covered by blankets and had handkerchiefs as their only head gear.

Northern Securities Company Cannot Be Lawed by State of Minnesota.

Chicago, March 7.—The state of Minnesota is barred by the decision of the supreme court from taking action in any court against the Northern Securities company, is the statement made by the Inter-Ocean's St. Paul correspondent.

This remarkable state of affairs, says the correspondent, has been made plain to local attorneys interested in the case, since receiving copies of the court's decision. Its effect is that the state can not join issues with the corporation, either in the supreme court or circuit courts and as the state courts can not reach it, the bar is effectual.

He brought suit against the railway company for \$20,000 in the district court of Bowie county, at New Boston. The National Cotton Oil company was also made a party defendant in the suit on the ground that it was equally responsible with the railroad for the accident. Thursday the railroad and the National Cotton Oil company, by way of compromise, confessed judgment for \$4000 and the railroad agreed to furnish Bumb with permanent employment.

BRAIN-FOOD NONSENSE.

Another ridiculous food fad has been branded by the most competent authorities. They have dispelled the silly notion that one kind of food is needed for brain, another for muscles, and still another for bones. A correct diet will not only nourish a particular part of the body but it will sustain every other part. Yet, however good your food may be its nutriment is destroyed by indigestion or dyspepsia. You must prepare for their appearance or prevent their coming by taking regular doses of Green's August Flower, the favorite medicine of the healthy millions. A few doses aids digestion, stimulates the liver to healthy action, purifies the blood, and makes you feel buoyant and vigorous. You can get Dr. G. G. Green's reliable remedies at Wilson-Jenkins Drug Co.'s store. Get Green's Special Almanac.

CUBAN RECIPROCITY WRECK MOST SERIOUS

The Third Conference of Republicans Held in Washington.

NO ACTION TAKEN. MANY PERSONS DEAD

The Difference Is Over the Twenty per Cent Reciprocity and the Rebate Plan—Mr. Dalzell Was the Principal Speaker.

Washington, March 7.—The third conference of Republican members of the house of representatives to consider the question of Cuban tariff concessions was held Tuesday night in the hall of the house. About 150 members were present, and great interest was manifested owing to the sharp division which has occurred between the supporters of the ways and means proposition for 20 per cent reciprocity, as put forth by Chairman Payne, and the rebate plan proposed by Representative Tawney of Minnesota.

Prior to the meeting Speaker Henderson and Representative Cannon of Illinois, the latter chairman of the caucus, called at the White House and were understood to have held a further conference with the president on the situation.

Mr. Dalzell, a member of the ways and means committee, and an ardent supporter of the Payne reciprocity plan, was recognized at the outset for an extended speech, presenting legal objections to the Tawney proposition. He maintained that this proposition was a bounty to Cubans, and as such, was unconstitutional. He also urged the impracticability of the bounty plan, saying there were some 15,000 planters dealing through 160 middlemen, so that it would be impossible to make equitable distribution. Mr. Dalzell referred to the widespread sentiment of the press favorable to reciprocal concessions. He was interrupted by a fire of cross questions as he proceeded.

Mr. Dalzell declared that the Republican party had never run away from an issue, and it should not run away from this one. He read from the president's message favoring reciprocity. At one point Representative Mahan of Pennsylvania interjected the query:

"Suppose Cuba's products were iron and steel instead of sugar and tobacco, should they remove 20 per cent tariff concessions?"

One of the Philadelphia members added the statement that his district did not favor the reciprocity plan. Mr. Dalzell proceeded with his argument, maintaining that from the standpoint of expediency and practicability the Payne plan offered the best solution of the problem.

Representative Taylor of Ohio maintained that there should be no inroads in the doctrine of protection. Representative Mahan presented a resolution for the postponement of the entire subject until the next session of congress. In a short speech, he declared that the west had stood by Pennsylvania when there was not a smokestack in the west, and in return he proposed to stand by the best sugar smokestacks of the west.

Representative Long of Kansas spoke in favor of the Payne proposition, and had not completed his argument when, at 11 o'clock, he yielded to Speaker Henderson. The latter counseled the fullest discussion before action was taken, in order that differences might be reconciled and an amicable adjustment reached. The speaker's suggestion met general acceptance, and at 11:15 the conference adjourned until next Tuesday night.

New York, March 7.—If plans now under consideration are consummated the Pacific Mail Steamship company and the Panama Railroad company may again enter into traffic relations with each other. Liverpool, March 7.—The British steamer Harmonides from Brazilian ports, which was in collision with and sunk the Red Star line steamer Waesland Wednesday night about 40 miles southwest of Holyhead and which was towed to this port by tugs sent in search of her, has a great hole in her bow.

One of the rescued passengers of the Waesland who was on board the Harmonides said the Waesland was run into amidships in a fog at midnight and sank half hour afterward, her boilers bursting as she went down. Reports say that only two passengers of Waesland, man and child, lost their lives, appears to be confirmed. In addition one woman was injured. Some of the Waesland's boats were in water a couple of hours before rescued, but owing to fog they could not get alongside the Harmonides.

When the Harmonides arrived here her decks were crowded with half-clad passengers of the Waesland whose pale and haggard faces told the story of their trying experience. So hurried was the departure of passengers from the sinking ship that in some cases they were only covered by blankets and had handkerchiefs as their only head gear.

This remarkable state of affairs, says the correspondent, has been made plain to local attorneys interested in the case, since receiving copies of the court's decision. Its effect is that the state can not join issues with the corporation, either in the supreme court or circuit courts and as the state courts can not reach it, the bar is effectual.
